

Participants in Three Bush Foundation Programs for Superintendents, Principals and Educators

- *Bush Superintendents Program (BSP)*—Between 1976 and 1992, 394 individuals received training including 229 school district superintendents, 142 assistant superintendents, 18 other central office personnel and five officials from the Minnesota State Department of Education.
- *Bush Principals Program (BPP)*—Between 1986 and 1994, 248 school principals received support.
- *Bush Educators Program (BEP)*—Between 1995 and 1997, 71 individuals (superintendents, principals and other school leaders) received grants.

All told, 712 unique individuals¹ participated in the three programs.

Two participant lists follow:

- sorted by program and year (pages 2-30)
- all three programs sorted alphabetically (pages 30-67)

Note: The information provided on each list was current as of 1992 for all participants in and prior to 1992; for participants after 1992, the information is current as of the year of participation.

¹ Mr. Marlowe Halbur participated in the BSP in 1986 and in the BEP in 1995, so while the participants in the three programs total 713, there were only 712 who were unique.

**Participants in Three Bush Foundation Programs
for Superintendents, Principals and Educators
By program and year**

Note: The information provided in this list was current as of 1992 for all participants in and prior to 1992; for participants after 1992, the information is current as of the year of participation.
